Subject: Get the Poison out of our River

Dear Portland Harbor Cleanup Public Comments,

Dear Ms. McCarthy and Members of Congress,

Years ago our Portland Harbor was designated a Super Fund site because of all the toxins there had been put into the river. To this day these same companies continue to pollute our river and have done everything they can to put off what was to have been done years ago to clean it up. The time has come for someone of responsibility to step forward to say that enough is enough. NOW is the time to do the clean up job and to stop more toxins from being dumped into our river. Please be the one to take that stand and take action. Show us that someone really does follow through on the commitment made decades ago. Help us to believe that the EPA really does it's job.
